Ontario Land Surveyor

Seeking a professional Ontario Land Surveyor, who is a licensed member by AOLS or in the process of Articling to join a small land surveying office.

- You will work with an experienced OLS
- You will work on projects mostly in the Kitchener-Waterloo area
- You will work closely with field survey staff in the field as required

Duties include:

- All aspects relating to cadastal surveying projects, land development projects and construction projects.
- Communications, including direct client contact and final reports

Project Types include:

- Cadastral surveys (Reference Plans, Condominium Plans, Plans of Subdivisions)
- Various land developments from start to completion (student housing, severances, subdivisions)
- Complex construction projects, grading design
- You are comfortable working independently and with a Team.
- The successful candidate will have working knowledge with AutoCad, Microsurvey and Robotic Total Stations and GPS technology.
- Familiarity with Condominium projects is an asset.
- Topographic Surveys
- UTM Control Surveys
- Plans of Condominium
- Reference Plans
- Surveyors Real Property Reports
- Precise Layout
- Monitoring Surveys
- Boundary Surveys for Fencing
- All Drawings CAD Generated
- GPS Surveys
